

SURENAIL[®] TECHNOLOGY

There's a line between a good shingle and a great shingle.

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having SureNail[®] Technology.

Excellent Adhesive Power
Helps keep the shingle layers laminated.

Outstanding Grip
The SureNail[®] strip enhances the already amazing grip of our proprietary Tru-Bond[®] sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design
Patented SureNail[®] Technology** is the first and only reinforced nailing zone on the face of the shingle.

No Guess Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Triple Layer Protection**
A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

Double the Common Bond
SureNail features up to a 200% wider common bond area in the nailing zone over standard shingles.

Pub No. 10020695
*See actual warranty for complete details, limitations and requirements.
**SureNail[®] Technology is proprietary with U.S. and foreign protection including U.S. Patent Nos. 7,836,654; 8,156,704; 8,181,413; 8,240,102; 8,430,983; 8,607,521; 8,623,164; 8,752,351; 8,991,130; 9,121,178; and other patents pending.
*The amount of Triple Layer Protection[®] may vary on a shingle-to-shingle basis.
SureNail[®] Technology is available only on Owens Corning Duration[®] Series Shingles.
